

**REMARKS**

Claims 1-2, 4, 7-8, 10-11, 14-19, 21-22, 24-26 and 28-32 are pending in this application. By this Amendment, independent claims 1, 11, 14, 18 and 22 are amended and new claims 28-32 are added. Applicants maintain all arguments set forth in the response filed on March 30, 2007.

A Request for Continued Examination (RCE) is being filed concurrently with this Amendment. The RCE requests entry of the amendments previously filed on March 30, 2007. This Amendment amends the claims after entry of the March 30 amendments.

The above amendments correspond to the amendments discussed during the March 29 personal interview between Examiners Patel and Gupta and applicants' representative, Mr. Oren. For example, independent claim 1 is amended to recite that the first tracking coil is a different coil than the second tracking coil. As discussed during the personal interview, U.S. Patent 7,038,977 to Cheong et al. (hereafter Cheong) does not teach or suggest the respective features of the tracking coils and focusing coil as recited in independent claim 1. Each of the other independent claims includes a similar type of amendment. Each of the other independent claims is also believed to define patentable subject matter for at least similar reasons.

Applicants respectfully submit that the known prior art does not teach or suggest the features of each of dependent claims 28-32, which were discussed during the personal interview.

**CONCLUSION**

In view of the foregoing, it is respectfully submitted that the application is in condition for allowance. Favorable consideration and prompt allowance of claims 1-2, 4, 7-8, 10-11, 14-19, 21-22, 24-26 and 28-32 are earnestly solicited. If the Examiner believes that any additional
